Though you can easily spend hundreds upon hundreds of dollars on top of the line beauty and skincare, sometimes the best products simply won't cost you an arm and a leg. The difficult part is trying to figure out which products we can trust to get the job done – as opposed to the the ones that are a total waste of money.

Celebrities are a great source for beauty recommendations because we know that when they shout something out, it's usually the real deal. Whitney Port recently took to Instagram and shared this seriously affordable product that she uses to keep her skin as smooth as can be. The Hills star's complexion is seriously flawless – so we're definitely paying attention to any tips that she has for Us!

Get the Tinkle Eyebrow Razor for prices starting at just \$4, available at Amazon! Please note, prices are accurate at the date of publication, January 24, 2020, but are subject to change.

Port revealed that she likes to use the Tinkle Eyebrow Razor to make her skin smoother, which can in turn prime it for better makeup application. In her Instagram stories she called this tool “amazing” and noted that she uses it “to get off all peach fuzz” on her face. She noted that even though this process “sounds yuck,” this is an essential beauty step in her routine.

“As I’m getting older I’m getting random spots of peach fuzz that need to go away,” Port wrote in her post. The 34-year-old new mom also made it a point to mention that “there’s no stubble after and it will exfoliate your skin as well.” These razors are probably the cheapest exfoliating product that you can find on the market, and with Port’s stamp of approval, we are truly intrigued!

Good Morning

You guys. I use this amazing tool to get off all the peach fuzz on my face. Yes, I know that sounds yuck but as I'm getting older I'm getting random spots of peach fuzz that need to go away! There's no stubble after and it exfoliates your skin as well. Linking it for you!

Sometimes women can feel a bit apprehensive about taking up the practice of face shaving, specifically with the common misconception that hair will grow back thicker or darker. But as already mentioned, this is totally untrue. In a recent interview, dermatologist Dr. Debbie Palmer asserts that your “hair will not grow back thicker or faster,” and that “shaving does not change the number of hair follicles in the skin or the rate of hair growth.”

Over 9,000 Amazon shoppers seem to agree with Port and are stanning these Tinkle Eyebrow Razors. Thousands of happy customers are awarding this seriously inexpensive product five-star reviews and we think we’re going to have to try it for ourselves. At just \$4, what do we have to lose?
