# PREMIERE DERMATOLOGISTS OF NEW YORK

## DEBBIE PALMER, DO, FAOCD

### Using Antioxidants to Protect & Repair

Dr. Debbie Palmer is a leading dermatologist and expert on antioxidants and how they improve skin's appearance and boost total body wellness. She is also an author and founder of **Replere™**, a nature-based antioxidant skincare line.

Dr. Palmer practices general and cosmetic dermatology, and she performs a wide variety of cosmetic procedures including Botox, fillers, lasers, photo rejuvenation, leg vein treatments, and chemical peels.

Dr. Palmer recently launched **Replere Restore & Fortify Beauty Shooters**: 1-ounce antioxidant drinks made with *Coffea arabica* extract. They not only help replace what is lost daily through physical and emotional stress, pollution, sun exposure, and exercise, these once-a-day, great tasting "shots" also help supplement those who don't eat a healthy, balanced diet. While they don't contain caffeine, *Beauty Shooters* do give you energy – so drink one in the morning before you start your day!

440 Mamaroneck Avenue, Suite 412 · Harrison NY · 914-777-1799
